CRA312

WILD CAUGHT FROM RUSSIA
.....

Also known as Brown King Crab, serve Golden King Crab (*Lithodes aequispinus*) on its own as an amazing center of the plate seafood or add a leg or two with steak and create a unique and unforgettable surf-n-turf. King Crab legs are available in a wide variety of sizes and styles – check in with your Santa Monica Seafood Representative to get the perfect fit for your menu and budget.

King Crab legs are truly a celebration food – encourage you customer to splurge and enjoy this King of the Crabs! Plus, King Crab meat is low in saturated fat and is a great source of vitamin B12, phosphorus, zinc, copper, and selenium!
