## Slipper Lobster

### CHARACTERISTICS

Slipper Lobsters have no claws - the meat we enjoy comes from the tail. It's sweet and tasty and although not quite a substitute for Maine Lobster meat, it's still delicious and versatile (at a good price). Slipper lobster meat is white and firm.

### FOR YOUR MENU

Slipper Lobster Meat is great in soups (especially chowder), salads or other preparations where you would feature Rock Lobster meat.

### FOR YOUR WAITSTAFF

Encourage your customers to try Slipper Lobster meat - it's sweet and delicious!

### FOR YOUR RETAIL DISPLAY

Let your customers know that although it's not Maine Lobster, Slipper Lobster is delicious (and priced right)!

#### Species Name:

Scyllarides haanii

#### Sustainability Rating:

Grey - Unranked

#### What:

Tail Meat from the Slipper Lobster

#### When:

Available Year-Round

#### Where:

China

**How:** Wild Caught/Trap
