PACIFICO TRUE STRIPED BASS

WHOLE, GILLED & GUTTED | 5.5 - 8.5 LBS

BAS1054

FARM RAISED FROM MEXICO

Sustainably open-ocean raised striped bass, not to be confused with the hybrid species currently farmed in freshwater ponds and lakes. Striped Bass (*Morone saxatilis*), also known in the wild as rock fish or stripers, are large fish with black stripes running along their silvery metallic sides.

This unique fish has beautiful striped skin. Meat is white with a reddish-pink bloodline. This farmed True Striped Bass (*Morone saxatilis*) has more fat content than wild fish, providing excellent taste and texture. It's versatile and delicious.

BAP Certified with 4-Stars for Processing Plant, Farm, Hatchery and Feed.
