FARM-RAISED
PRODUCT OF CANADA
.....

Malpeque Oysters are a popular Atlantic oyster harvested from the cold, clean waters of Malpeque Bay in Prince Edward Island, Canada. The meat of these bivalves is delicate and full of flavor. They have a briny taste with just enough crisp lettuce finish to make them stand out in your mouth, as well appetizing all at once!

Delicious to serve raw on the half shell, play off Malpeques salinity content with a contrasting flavor such as watermelon, or keep it simple with just a squeeze of fresh lemon or mignonette sauce.

If you are offering these oysters inside a market, display Malpeques with a jar of cocktail sauce – your customers will appreciate the reminder!

- 100 ct per bushel
- Choice
- 2.5"-3" size
- A sustainable choice of seafood
- Rich in zinc
