IceFjord Salmon is raised and harvested in the pristine waters of Iceland, home to only 1.5% of the world's salmon production. This salmon is unique enough to be a true standout on your menu. Our Icelandic partners, exclusive to SMS, are vertically integrated, controlling every step of the process from hatchery, development, harvest, and shipping.

Food traceability and responsible farming are vital components of our sourcing strategy. IceFjord is committed to making all operations as transparent and sustainable as possible, assuring consumers can make informed decisions on their food choices. IceFjord also achieves exceptional flavor profiles and firm textures while supporting the highest standards in sustainable aquaculture.

Icelandic fish farming regulations are among the strictest in the world when it comes to environmental impact to protect their unique natural resources. These regulations, along with the wide-open space, pure air, and water, make IceFjord Premium Icelandic Salmon achieve a vibrant color, firm texture, and delicious taste.
