

MANGROVE BLACK TIGER SHRIMP

Raised and Harvested Naturally From Mangrove Forests

✓ **No Antibiotics** ✓ **GMO Free** ✓ **Frozen Fresh After Harvest**

Santa Monica Seafood's Mangrove Shrimp is naturally grown in restorative mangrove reserves by small-scale farmers without the use of feed, fertilizers, or antibiotics.

Silviculture combines shrimp production, mangrove reforestation, and carbon sequestration to produce a superior wild flavor, premium return to the farming family, and environmental enhancement.
